# Reddit: "The Front Page of the Internet"

Reddit operates as a collection of over a million communities known as *subreddits*. These are message boards oriented around a topic of interest such as:

- /r/NBA
- /r/politics
- /r/science

Users interact within the subreddits by:

- posting content (images, gifs, or text discussion)
- commenting on posts
- voting

# Memes

Reddit is one of the largest communities on the internet for new, revolutionary, and influential purposes. User interaction within popular subreddits can have a great influence across the communities. Due to the richness and size of the dataset, we have proposed the following objectives:

data size file type process

# Objectives

## Objective 1

Investigate relationships of the top 100 most active subreddits by tracking the spread of memes across those communities.

## Objective 2

Analyze patterns of user comment activity in a multi-month span on Reddit.

## Objective 3

Determine how level of community moderator activity affects distribution of user comment scores.

## Objective 4

Analyze the fluctuations of user activity across subreddits by time of day.

# Objectives

## Objective 1

Investigate relationships of the top 100 most active subreddits by tracking the spread of memes across those communities.

## Objective 2

Analyze patterns of user comment activity in a multi-month span on Reddit.

## Objective 3

Determine how level of community moderator activity affects distribution of user comment scores.

## Objective 4

Analyze the fluctuations of user activity across subreddits by time of day.
